PHYS 8102: Quantum Theory II

Instructor: Dr. M. Bachmann

Office: room 309

Email: bachmann@smsyslab.org

Course website: www.smsyslab.org/teaching.html

Topics: The second part of the course is dedicated to the quantization of angular mo-

menta and the development of basic concepts of canonical field quantization in the context of relativistic quantum field theories. As an example, field operators and propagators for electrons, positrons, and photons in quantum electrodynamics will be studied in greater detail. The idea of visualizing possible scattering

patterns using Feynman diagrams is also introduced.

References: There is a large number of textbooks covering course-relevant material, e.g.,

W. Greiner and J. Reinhardt, Field Quantization (Springer, 1996); Quantum Electrodynamics, 4th edition (Springer, 2009); M. Kaku, Quantum Field Theory: A Modern Introduction (Oxford, 1993); M.E. Peskin and D.V. Schroeder, An Intro-

duction to Quantum Field Theory (Westview, 1995).

Class: Tuesday and Thursday, 11:10am–12:25pm, room 254.

Office Hours: You can contact me at any time.

Exams: Midterm and Final (take-home). The midterm exam will be in March; the final

exam in May. In both exams, only lecture notes and homework solutions are admitted. An exam that was missed without documented reason is assigned the grade F. If the instructor decides that missing an exam was excusable, an oral make-up exam will be set up. If you should be unable to take an exam for medical reasons, you must inform me before the exam starts and send me a copy of the original medical visit verification provided by your doctor by end of the exam day.

Homework: There will be graded assignments on a regular basis (typically bi-weekly) with

strict deadlines. Late homework will not be accepted. Do not submit homework

via email (unless directed otherwise).

Grade: Total Grade = (Homework + Midterm + Final)/3

Grading: [100,85]: A; (85,82.5]: A⁻; (82.5,80]: B⁺; (80,70]: B; (70,67.5]: B⁻;

(67.5,65]: C+; (65,55]: C; (55,52.5]: C-; (52.5,40]: D; (40,0]: F
